## **INVITATION TO SUMMER SCHOOLS OF THE ECO-FISH PROJECT**

The Chamber of Commerce and Industry of Vlore Region organizes summer school on topics related to aquaculture issues, in the context of the project "Ecological footprint in cross- border marine fish farming in Sagiada (Greece) and southern Albania (ECO-FISH)" of the Interreg IPA II Cross Border Cooperation Programme "Greece Albania 2014-2020". The summer schools' duration will be 20 hours.

Summer schools will be attended by 25 individuals each, from the professional aquaculture industry, competent authorities and scientists and will be held on the following dates:

**Summer school A: 28, 29, 30 July 2020 (Duration of total training: 20 hours)**

**Summer school B: 28, 29, 30 March 2020 (Duration of total training: 20 hours)**

Summer school will take place at the Orikum, Vlore. The topics that will be presented during the summer school are presented below:

- Presentation of fish farming sector
- Aquaculture legislation
- Environmental issues and Environmental Impact Assessment (EIA) in marine fish farming
- Application of LCA method in aquaculture and management options.

You are kindly requested to register to the summer school that you wish to attend by Friday, 24/07/2020 with one of the following ways:

- Tel. 033222111
- E-mail: ccivlore@gmail.com

Thank you very much for your cooperation.

The ECO-FISH Project is being implemented under the Interreg IPA II Cross Border Cooperation Programme "Greece – Albania 2014 – 2020" and is co- funded by the European Union and National Funds of the participating countries.
