

Vlorë, 10.08.2020

**Implementation of the action “Organization of visits in fish farms in Albania”
for the ECO-FISH Project**

We inform that the Chamber of Commerce and Industry of Vlorë Region, PB3 in the ECO-FISH Project *“Ecological footprint in cross-border marine fish farming in Sagiada (Greece) and southern Albania”* has implemented Visits in fish farms in the context of Deliverable 5.3.2 “Organization of visits in fish farms in Albania”.

The Visits in the fish farm of the company Alb Adriatico took place on 1st of August 2020. It was attended by 30 participants and provided professional and specialized information in various business topics that included: the production process and related environmental issues, development prospects and problems the fish farm faces, issues of competition, promotion and advertising of products and services, institutional and structural changes required, and, presentation of structure and operation, as well as, human resources and upgrading prospects.

“The ECO-FISH Project is implemented under the Interreg IPA II Cross-Border Cooperation Program" Greece - Albania 2014-2020 "and is co-funded by the European Union and the National Funds of the countries participating in the Program”
